KD: [laughter] That specific [inaudible].

BH: How many [inaudible]?

KD: Now, you think you analyzed this, right?

KD: Well, [inaudible]. You still can't get [inaudible].

BH: [inaudible]

KD: [inaudible] that is the [inaudible].

BH: Yes, still [inaudible].

KD: So, he came [inaudible]?

BH: It's just a theory. I think [inaudible].

KD: That is the only thing for [inaudible].

BH: [inaudible]

KD: [inaudible], is that the same. Do you think? Are they all even the same?

BH: Maybe [inaudible] after that, make a [inaudible].

KD: [inaudible] here is a married couple who go out together on a boat. [inaudible]

BH: [inaudible] that's for sure. One thing essentially, we had a [inaudible] of a water tank and [inaudible]. Even though the fish would come back from one day to another day, you put them in a [inaudible]. He would [inaudible] even though he was a [inaudible] because then he'd gone on his way to the [inaudible]. He came out [inaudible] or whatever you want to call it. Especially today with the [inaudible]. If I would join forces or not. [inaudible] and made me [inaudible]. If I have to do it on the ground and I broke down [inaudible] and they got that [inaudible]. You would think it was the same thing [inaudible] with a low [inaudible]. It wasn't until [inaudible]. Even though some days when you're trying to fight while you're out of the [inaudible] and you're hitting the ball [inaudible] and live out. [inaudible] because the [inaudible].

KD: [inaudible].

BH: There are many times I would just [inaudible].

BH: I know. I don't know whether he [inaudible]. I can understand but not to the extent where I'm now getting mad about it and hope he breaks down or [inaudible]. In fact, they're all being extreme. I'm getting more [inaudible] in the water in the next [inaudible].

FS: There must have been [inaudible] going on [inaudible].

BH: [inaudible]

KD: Who can fix that?

BH: [inaudible]

FS: I do not know if he will do. But [inaudible].

BH: Even out there [inaudible]. At the same time, he got a [inaudible] one of them [inaudible].

FS: His name was John. [inaudible]

KD: Maybe you are the only [inaudible]. [laughter]

BH: [inaudible]

FS: [inaudible] I was trying to say [inaudible].

BH: But that is [inaudible]. We never took things for granted. [inaudible] 8/9/93. They got pictures of it. They [inaudible] about it. [inaudible] but we got it to [inaudible] those who had to at any point. [inaudible]

KD: Is that the [inaudible]?

BH: [inaudible] and then you got put them back in the water [inaudible]. They didn't have it, but [inaudible]. But the things [inaudible].

FS: Between [inaudible], taking a [inaudible], and they're putting under 40, 50 feet of water. That's in [inaudible]. Now, no matter what they do, they're going to have to do something about it to recover it. That's why you've got thousands and thousands of [inaudible]. That's why I might want to go out there and [inaudible]. I lost plenty. On one night, I lost about 1500 one year. [inaudible] 2005 [inaudible].

BH: [inaudible] and that wasn't because of the weather. They lost because of [inaudible].

KD: [inaudible]

FS: Yes.
