KDM: How long [inaudible]?

SS: Well, I dropped it [inaudible]. My wife got a [inaudible].

KDM: [inaudible]

SS: Yes. [inaudible].

KDM: Did you get anything else?

SS: Yes. [inaudible].

KDM: So, you spoke to (Roy?)?

SS: Yes. (Roy?). [inaudible]

MS: [inaudible]

SS: [inaudible]

KDM: Was there any other [inaudible] you could help him to do?

KDM: What type of [inaudible]?

MS: [inaudible]

SS: [inaudible]

KDM: [inaudible]?

MS: No, [inaudible].

SS: [inaudible]

MS: In [inaudible].

SS: [inaudible]

MS: [inaudible]

SS: [inaudible]

MS: [inaudible]

SS: [inaudible] It was a little bit harder.

MS: So, I grew up learning [inaudible]. Every day I [inaudible].

SS: [inaudible]?

MS: Yes. [inaudible].

KDM: How many classes have you had?

MS: In a couple of months.

KDM: So, you know [inaudible].

MS: I've been cod fishing [inaudible] anything that's –

SS: Anything at all.

MS: Anything I could [inaudible]. Tried to point out. People got involved. (They say the more people, the merrier?). [inaudible] Channel Five is also the fact that they owned [inaudible] fish price wasn't so low. We were primarily out fishing [inaudible].

SS: Lots of [inaudible] fishing.

KDM: Yes. [inaudible]. We feed too. They are socialized. [inaudible]

MS: They were brought [inaudible] and they get a little [inaudible]. You have to adapt as well. [inaudible]. I didn't realize [inaudible].

SS: [inaudible]

MS: We asked them and they won't [inaudible].

KDM: You were?

MS: [inaudible] four other children. [inaudible]. Everything and any day. Yes, you [inaudible] the big, old jelly.

SS: [inaudible] I really bought a couple.

KDM: I found everything. Thank you.

SS: [inaudible]

KDM: Particularly impact?

MS: All the students [inaudible].

KDM: K&K?

SS: Yes, the K&K.

MS: They found the fishermen. They are [inaudible].

SS: [inaudible] young fish for the fishery.

MS: Yes, the smaller fish.

KDM: Very cool.

MS: [inaudible]

SS: [inaudible]

Male Speaker: What have you done in that service?

SS: [inaudible] fish and water. I was wondering exactly [inaudible].

MS: They are all going to take [inaudible].

SS: [inaudible]

MS: Well, that means if they make less [inaudible]. They bring in [inaudible].

SS: [inaudible]

MS: Yes. They actually owned another boat.

SS: Oh, yes.

MS: [inaudible]

SS: I don't think all that. Well, [inaudible].

MS: [inaudible]

SS: Yes. [inaudible].

KDM: [inaudible]

MS: When that [inaudible] came out [inaudible]. That used to be [inaudible].

SS: Yes. Dory fishing [inaudible].

MS: Half of Maine people. So many people. [inaudible] in front of them.

SS: [inaudible]

MS: [inaudible] The desired fishermen feel like, yes, there's definitely a lot to be done. Also, once again, [inaudible] were complaining about it [inaudible].

SS: [inaudible]

MS: [inaudible]

SS: [inaudible]

MS: It appears some [inaudible] so when you realized it, you had to have a [inaudible]. You got a very narrow banner.

SS: [inaudible]

MS: In those harder areas in the mangroves, right? [inaudible]

SS: Then after you left [inaudible]. That's a bag they're using.

MS: [inaudible] I don't know. I've never seen [inaudible]. I don't know.

SS: [inaudible] I tried to [inaudible].

MS: [laughter] Yes, that works in the [inaudible], right?

SS: Yes, [inaudible].

MS: [inaudible]

KDM: [inaudible]?

MS: [inaudible]

SS: Yes, while [inaudible].

MS: Well, I used to be [inaudible].

KDM: That is between [inaudible].

MS: [inaudible] going out in smaller boats.

SS: [inaudible] mono fiber.

MS: It was a bit mast. [inaudible]

KDM: [laughter] Yes. Well, communication is [inaudible].

MS: [inaudible] There's a certain amount of [inaudible]. I thought, "Well, let's change it. I never recall about any changes."

SS: [inaudible]

MS: Now, I'm thinking about it.

SS: [inaudible]

MS: I'm thinking about it. [inaudible]

SS: [inaudible] People aren't going to [inaudible]. That is really [inaudible]. They're out there doing [inaudible]. Now, it's [inaudible] some responsibility for five years [inaudible].

KDM: Yes, sure. [inaudible] so many?

SS: [inaudible]

KDM: If you take [inaudible].

SS: [inaudible]

KDM: Yes, going [inaudible].

SS: [inaudible]

MS: [inaudible]

KDM: What were you thinking overall with coming down here [inaudible]?

MS: Well, we had forty-nine. [inaudible]

SS: [inaudible]

MS: [inaudible]

KDM: They were changing the [inaudible]. Right now, deciding [inaudible].

MS: After I tried to do [inaudible]. How do you say dying overall? I would say dying.
[laughter]

SS: Well, and all this is dying. [inaudible].

MS: Which I see why it's called...

SS: [inaudible]

MS: Yes, that's absolutely right. [inaudible].

KDM: You are going to [inaudible].

MS: Yes.

SS: [inaudible]

MS: It's unfair. [inaudible]

SS: Now, I could do this [inaudible].

MS: Well, actually most of them. [inaudible]. [laughter] [inaudible].

SS: Well, [inaudible].

MS: Yes. [inaudible] someplace else.

KDM: I do not know. I am just asking in an ideal world.

MS: [inaudible]

SS: [inaudible]

MS: [inaudible]

SS: The slack in the water [inaudible].

MS: Now, I think what they can do is [inaudible].

SS: Well, if I can [inaudible].

MS: Yes, that's right.

SS: It's all in here [inaudible].

MS: Also, I'm not [inaudible]. Well, I completely...

SS: Now, the technology for the [inaudible]. [laughter]

MS: I would actually concur. We didn't have [inaudible].

SS: [inaudible]

MS: Right now, you got a [inaudible].

SS: Well, you see, that is why I did it. There weren't a lot of fish around here. The [inaudible].

KDM: Did other guys have any problems with you?

SS: [inaudible]

MS: [inaudible] which is an area that we used to go to out in [inaudible].

KDM: I am asking you about [inaudible].

MS: [inaudible] our natural area was –

SS: [inaudible]

MS: It's in terms of years from where I used to [inaudible].

KDM: [inaudible]

SS: [inaudible]

KDM: You have 2.3.

SS: [inaudible]

MS: [inaudible]

SS: Now, that could be fine. [inaudible] total fish over there. [inaudible]. Most of the fish were

[inaudible].

KDM: Twenty years.

SS: [inaudible]

MS: [inaudible] I used to find the boys [inaudible].

SS: Yes, I'd walk [inaudible].

MS: [inaudible] December rains, you couldn't get that much in. You came back here; you were fishing in February. You took the scalloping boats and you got back in the water. [inaudible]. But anyway, I'd stay in here, I couldn't see anything. [inaudible].

SS: We always played [inaudible].

MS: Yes, that's it. Yes, exactly. You don't know until you get out there.

SS: [inaudible]

MS: [laughter]

SS: [inaudible]

MS: I think it was [inaudible].

SS: [inaudible]

MS: [inaudible]

SS: [inaudible] the whole day we went down the hill.

MS: That's a fairly new thing down here. [inaudible]

SS: [inaudible] a lot of fish.

MS: [inaudible] at all. We had a couple of years up there. But you can't find any house even around that part.

KDM: Right.

MS: [laughter] It's microscopically.

SS: [inaudible]

MS: [inaudible] Sealed-tight body shield.

SS: [inaudible]

MS: Pretty much. [laughter] [inaudible]

KDM: Is there anything [inaudible]?

MS: I have to find [inaudible]. Blackwater couldn't go [inaudible] automatically or [inaudible].

KDM: [inaudible] decreasing.

SS: It's about the same.

MS: For recreation, yes.

MS: [inaudible] I think there was something that came through in the day. I was thinking about the [inaudible].

SS: [inaudible]

MS: It's because that's the problem. Yes, everything was [inaudible].

KDM: Go ahead.

MS: [inaudible] about the same time that all came about.

SS: Now, [inaudible].

MS: We were only documenting even the recollection from the site controllers.

KDM: Site controllers?

MS: Yes. [inaudible].

SS: [inaudible]

MS: Well, we found the [inaudible].

SS: [inaudible]

MS: So, we found the [inaudible]

SS: [inaudible].

MS: It was [inaudible] day, almost like a narrow [inaudible]. Well, we were probably lost but then he [inaudible]. About the time I came to town [inaudible]. We happened to see a lot of

[inaudible]. We used to [inaudible].

SS: Yes, a lot had good value.

MS: He was married to somebody [inaudible]. But then the [inaudible]. That was strictly [inaudible]. If I [inaudible]. [laughter]

SS: [laughter] I was fishing [inaudible].

MS: [inaudible]

SS: [inaudible]

MS: Anywhere from [inaudible].

SS: That was [inaudible].

MS: [inaudible]

SS: [inaudible]

MS: Also, in [inaudible]. They always...

SS: I [inaudible].

MS: No, you were [inaudible].

SS: Now, he had. [inaudible]

MS: The thing is you started developing [inaudible].

SS: Yes. I was counting my [inaudible]. We were gang up. Now, whether I think it was important [inaudible].

MS: It was very important. I think that's the [inaudible].

SS: [inaudible]

MS: Yes, I guess the water was [inaudible].

SS: [inaudible]

MS: [inaudible]

SS: [inaudible] I was thinking what type of thing is that.

MS: Yes. I thought some guy [inaudible].

SS: [inaudible]

MS: A lot of [inaudible]. It was a whole situation with that.

SS: No. It didn't look like he was trying to be [inaudible]. No, it didn't look like it. [inaudible].

KDM: That is available.

SS: [inaudible]

KDM: What history is that?

SS: Well, [inaudible].

KDM: You could not touch the water?

SS: Too many fish [inaudible]. Yes, we may [inaudible] on the traps, trawling the net, trawling [inaudible]. Not really. Sometimes you bought your own line. [inaudible]. Out seining throughout the south part of [inaudible]. I wanted to go on [inaudible].

KDM: [inaudible].

SS: Well, they grow back [inaudible]. But seining probably kicked in, in the fall because that's when [inaudible].

KDM: (Fire gram?)?

SS: Fire gram. [inaudible]. But I have noticed [inaudible].

KDM: What type of [inaudible]?

SS: [inaudible] mackerel out of [inaudible].

KDM: [laughter] That is something that it looks like we might [inaudible].

SS: Well, it's on its own. I have seen many confusing in [inaudible]. I don't know. I never really got in with the [inaudible].

KDM: Yes, I think you had [inaudible].

MS: Now, you hop on [inaudible].

SS: No. I decided [inaudible]. [laughter]

KDM: You were running from the [inaudible]. Is that what you are saying?

SS: Yes. Well, [inaudible].

KDM: Something that is always...

SS: Well, yes. It's something that I've always known. [inaudible]

KDM: [inaudible]

SS: No. [inaudible] Nothing would [inaudible].

KDM: [inaudible]

SS: [inaudible]

KDM: Well, see, I heard a lot about that [inaudible].

SS: Well, [inaudible] in alignment [inaudible]. So, no, we can't hit the [inaudible].

KDM: [inaudible].

SS: No, I don't know. I don't think so. It's unfortunate the fish [inaudible]. Now, I was thinking we did it because of [inaudible].

KDM: I am sorry. I cannot. I am sorry.

SS: [inaudible].

KDM: Was that with the room?

SS: Now, I [inaudible]. I don't doubt it. [inaudible]. You might think well it was and some other [inaudible]. Well, after [inaudible] got disrespected. [laughter]

KDM: Who come out to think that?

SS: Oh my God. [inaudible]. We get the fish on the land; it didn't matter what happened to the water when they were through. [inaudible]

KDM: [inaudible] involved a lot of [inaudible].

MS: [inaudible] maybe that water is [inaudible].

SS: [laughter]

KDM: Anything else?

MS: [inaudible]
